

# Aspiring nurses teach students a thing or two

Healthy eating, STDs and other infectious diseases among topics covered

By STEPH KAGAN

The health fair held on March 22 at SFU by the first-year students of nursing is drawing teachers' praise. After students exhibited to get information on things like eating healthy, STDs and other infectious diseases.

The health fair was one of the first steps in preparing the first-year students to become nurses. The fair was held in the building of nursing in the program.

"It's not someone coming in from outside the college with what they feel is important for the students to know, it's what the students actually said they wanted to know more about,"

*Mark Nelson,  
clinical nurse*

"First the students read in the student newspaper and had a speech on what was important for health," she said. "Then we went to the health fair where the students said they wanted to know more about it."

The nursing students covered topics from stress to eating and got the information they needed to know. The students were very helpful in the health fair, which was the second year.

The third year of the program was the health fair where students

Three nursing students, Kristina Chandra and Stephanie Bhatia, students in the building of nursing in the nursing program, displayed and distributed information on the health fair on March 22 in the first year.

attended with other students, along with teachers and nursing students. The health fair was held in the building of nursing in the program.

## COUNSELLOR'S CORNER: Final Exams

Whether to study or to relax. Whether to walk or to study. Whether to become overwhelmed or to be happy in the short, happy, for the best. Here you can find the best and energy is up to you and will determine your level of success or failure.

- Go to the main point with your eyes wide open. You need to know:
- how many exams you have and in which subjects
- when, where and for how long they are scheduled
- what material will be covered with emphasis on which areas
- what format the exams will have (multiple choice, essay, short answer)
- what percentage of your final mark the exams cover

About three weeks before exams start, mark the times and locations of each exam on a calendar. For each course, list what you need to study and the sources you will use (textbook, class notes, assignments). Estimate the amount of study time you will need and schedule study periods on the calendar. By planning ahead, you know you will have time for each subject.

Use all sources of help available to you. Old exams, classmates' study guides, class reviews from last years or highlight questions to a supervisor and chapter questions. Put your study list together and information about the exams.

Here are some tips:

- start studying for the first exam and saving up of time and energy for the others
- working hard for the course and not neglecting others
- not starting only enough learning for the last time during exam week

If you would like assistance in preparing for final exams, come to the Student Services office.

# Tips help you find perfect part-time job

## BY STEPHEN KRAUSE

Graduation is a hard enough thing to endure without having to find a new job to go to. But if you're a student, you can get a part-time job that will help you pay for your education.

Whether you're a high school senior or a college student, there are a lot of ways to find a part-time job that will help you pay for your education.

One of the best ways to find a part-time job is to look for a job that will help you pay for your education. This is a job that will help you pay for your education.

Another way to find a part-time job is to look for a job that will help you pay for your education. This is a job that will help you pay for your education.

to find a job, look it up on the Internet. It's a lot easier to find a job on the Internet than it is to find a job in a newspaper.

If you find a job that you like, you can go to the job and see if you like it. If you don't like it, you can go back to the Internet and find another job.
